Introduction

Hexaphoenix Pharma, established in 2017 and corporate office based in Ahmedabad, India, is a distinguished manufacturer and supplier of high-quality pharmaceutical medicines. We specialize in the development, manufacturing, export, and marketing of both pharmaceutical and nutritional finished products. Our commitment to quality is evidenced by our adherence to stringent FDA regulatory requirements, enabling us to successfully expand our market presence in numerous countries.

We are now prepared to expand our footprint in the North American market. Our US registred office is in 304 St. Jones Blvd #2599, Las Vegas, NV 89107. Our primary objective is to provide high-quality products that reach every corner of the globe.

We offer a wide range of nutritional and pharmaceutical over-the-counter products that are in high demand in the USA and Canada markets.

Our nutritional collagen products represent a new market trend, made from superior quality raw materials sourced from New Zealand and Japan. These collagen products are manufactured in the US facility and dispatched from the port of New York.

- All products comply with FDA current Good Manufacturing Practice (cGMP) regulations
- All products are third-party tested for quality
- Products are produced in the United States and India at US FDA-approved, ISO certified facilities
- Every product batch is tested to ensure highest quality standards and established guidelines are met

Our Commitment to Value : The importance we place on value is what keeps our customers returning year after year. We know that the best value products incorporate the best standards in quality and ingredients at the right price and we strive to achieve this standard with each of our products.

Our Commitment to Service : Customer service and customer satisfaction is extremely important to us. We recognize the enormous array of options open to US consumers and work hard to ensure that our customer experience, both online and offline, is simple and convenient and that our customers are satisfied with the products purchased.

- Made in INDIA / USA
- US FDA (EIR)
- DUNS Number: 119517088
